**ABOUT THE WEBINAR**

As per the guidelines of Honorable Supreme Court of India and ILOCC 2013, Management of Women at Workplace (Prevention, Prohibition & Redressal) Act 2013, it's mandatory for every institution to establish an Internal Complaint Committee (ICC). The main objective of the ICC is to create awareness about sexual harassment. Act among the female students and faculty members in the educational institutions.

Women, though are successfully making their careers in every field of the work and taking up leadership positions. Unfortunately they are facing sexual harassment in many places. At present, women faces various problems at their workplaces or any other place. Reporting against sexual harassment is not easy for any one of them. There are numerous factors responsible for inability to file a complaint against such crime. It may be due to lack of legal knowledge about women's rights, gender bias or fear about society and many more. To help them overcome from this situation, steps are needed at every level to support women's voice, representation and leadership.

Besides this, in today's Environment, work life balance and stress management in life is also a new challenge for working women. There are various roles performed by women at times such as family obligations, upbringing for children or elderly persons and work responsibilities as well as other roles. To fulfil the demands of these roles, women can feel overwhelmed with time pressure and unmet obligation. Keeping this view in mind, ICC of our institutes are going to organize one day National Webinar to guide the students and faculty members in the management of stress to empower themselves for the healthy life.

**About College**  
Vinayak Vidnyan Mahavidyalaya was established in the year of 2007 by the Pravin Khodke Memorial Trust, Amravati with view a to boost higher education in the rural area. The college is affiliated to Sant Gadge Baba Amravati University, Amravati. Presently the college offers two UG courses. i.e. Bachelor of Science with subjects of Botany, Zoology, Chemistry, Physics, Mathematics, Computer Science, Electronics and Bachelor of Commerce. At the initial stage, the strength of college was less but continuous increase in the number of students is an indicator of the college's potential for development. In future the college can be very well developed as a major center of higher education for socially and economically backward students of this area.
