## 1.0 Gender Audit

We should embrace the opportunity for continual growth in Diversity, Equity, and Inclusion (DEI). A gender audit enhances the collective capacity of the college to study its activities from a gender point of view and identify strengths and weaknesses in gender equality issues. To educate students about gender issues, as educational institutions play a crucial role, so it is important to measure the impact of society on the mentality of students towards the other gender. To accomplish this task, our college is always trying its best by doing various gender-related activities.

The college will conduct a gender audit from 2019–20 to 2021–22 to raise awareness about respect for all genders and find ways to make the campus safer for women. through a variety of seminars, self-defence workshops, and inspirational lectures about women's empowerment.

In accordance with the guidelines of the Supreme Court, UGC, and the Sexual Harassment of Women at Workplace Prevention, Prohibition, and Redressal Act 2013, the college has established an Internal Grievances Committee and Equal Opportunity Committee with the goal of preventing sexual harassment of any gender at the college. Throughout the year, a variety of seminars, guest lectures, and workshops are held to educate students about their legal rights and to combat sexual harassment.

## 1.1 Objectives of the Gender Audit

- To find out the areas where gender disparity exists and the factors behind it.
- To establish good gender balance in decision-making processes in all areas of college activities.
- To suggest measures for bridging the gender gap.
- To foster gender equality in all aspects of the college community.
- To see the work and capacity for prevention of sexual harassment at the college.

## 1.2 Methodology

As part of the gender audit, a questionnaire was specially designed for the teaching and non-teaching staff to procure gender-segregated data on the curriculum. It contains male-female composition across various departments as well as a listing of programs, workshops, and seminars conducted on gender-related issues.

This questionnaire also involves asking questions to the students about their experiences of the environment on the college campus for all genders. These questions focus on the experiences and expectations of every stakeholder. The statistical data provided for the last three academic years (2019-20, 2020-21, and 2021-22).

**Link to Questionnaire:** <https://forms.gle/naVtKgBLpxRxCFyE7>

## 2.1 Observations and Findings

As per the methodology adopted, our observations and findings are presented for each specific gender. Sensitive indicators were chosen to ensure the completeness and coverage of all separate yet related components of this audit.

### 2.1.1 Curricular Aspects

The education of girls affects their future economic security and that of the nation too. Understanding that sensitization programs are an absolute necessity on campus today, various initiatives have been taken. The College is an affiliated institution of Sant Gadge Baba Amravati University, Amravati, where the Departments of English and Marathi has included gender concerns in their syllabus.

**Department of English:** Eyes are not here, The Gift of Magi, Florence Nightingale, and Mallika Srinivasan

**Department of Marathi:** लिज्जतचीलज्जत, बाई, लल्लाटरेषा, सावित्रीबाईफुलेआणिताराबाईशिंदे.

## 2.1.2 Resources and Infrastructure

- The physical inspection revealed that the following important facilities, particularly those linked to safety and hygiene, are in place, taking into account the significant presence of female students:
- Girls have access to common rooms with proper sanitation.
- The automatic sanitary napkin incinerator machine is placed near the girls' common room.
- CCTV cameras are installed at all the prominent locations on campus.

## 2.1.3 Gender-segregated data on students and faculty in various departments

### Total number of students

Year	2019-20	2020-21	2021-22
Number	490	481	538

It is observed that there is an increasing trend in admissions except for the pandemic year 2020–21.

## Faculty-wise gender distribution in the enrolment of students

**Year-2019-2020**

Faculty	Male (%)	Female (%)	Total (%)
Science	125 (46.30%)	145 (53.70%)	270 (100%)
Commerce	91 (41.36%)	129 (58.64%)	220 (100%)
<b>Total</b>	<b>216 (44.08%)</b>	<b>274 (55.91%)</b>	<b>490 (100%)</b>

It has been observed that in the academic year 2019–20, the proportion of female students was higher than the proportion of male students.

**Year-2020-2021**

Faculty	Male (%)	Female (%)	Total (%)
Science	109 (41.28%)	155 (58.71%)	264
Commerce	93 (43.31%)	124 (57.14%)	217
<b>Total</b>	<b>202 (42.00%)</b>	<b>279 (58.00%)</b>	<b>481</b>

As this was the pandemic year, the total number of admissions was slightly lower than the previous year, although the number of female students had an increasing trend.

Year-2021-22

Faculty	Male (%)	Female (%)	Total (%)
Science	109 (42.57%)	147 (57.43%)	256
Commerce	119 (42.19%)	163 (57.80%)	282
Total	228 (42.37%)	310 (57.62%)	538(100%)

This year, there has been an increase in the number of students admitted, especially girls. Considering all three years as a whole, it is found that the admission graph of students is increasing, especially the percentage of female students, which is maintained at 58% amid the rise in overall student admission.

This represents promotion and easy availability of education for female candidates who have location restrictions because of remote areas and logistics issues. They do not have to travel long distances to get education.

## 2.1.4 Category-wise gender balance

Year 2019-20

Sr.No	Category	Male	Female	Total	% Male	% Female
1	Gen	25	16	41	61.00%	39.00%
2	SC	43	56	99	43.43%	55.56%
3	ST	12	09	21	57.14%	42.85%
4	OBC	109	159	268	40.67%	59.32%
5	VJ/NT	26	29	55	47.27%	52.72%
6	SBC	01	05	06	16.66%	83.33%

In the year 2019–20, it was observed that the percentage of the OBC category was the highest, followed by SC and NT as the 2nd and 3rd highest, respectively. Also, it has been observed that female representation is the lowest so far in the general category and the highest in the OBC category.

Year 2020-21

Sr.No	Category	Male	Female	Total	% Male	% Female
1	Gen	22	14	36	61.00%	38.88%
2	SC	46	45	91	50.55%	49.45%
3	ST	10	10	20	50.00%	50.00%
4	OBC	106	172	278	38.13%	61.87%
5	VJ/NT	17	33	50	34.00%	66.00%
6	SBC	01	05	06	17.00%	83.33%

It was observed that in the academic year 2020–21, the percentage of OBC and SC students was relatively higher than the other categories.

It was also observed that the percentage of female students was relatively higher than that of male students.

Year 2021-22

Sr.No	Category	Male	Female	Total	% Male	% Female
1	Gen	26	18	44	59.00%	41.00%
2	SC	45	52	97	46.39%	56.52%
3	ST	08	07	15	53.33%	46.66%
4	OBC	118	183	301	39.20%	60.80%
5	VJ/NT	30	43	73	41.00%	59.00%
6	SBC	01	07	08	12.50%	87.50%

In 2021–22, there was an improvement in the percentage of admitted students in each category, especially in the SC, OBC, and VJNT categories. Also, there is an increase in the percentage of female students.

Considering all three years as a whole, it is found that the admission graph of students in every category is increasing, especially the percentage of female students. It is seen that the college has succeeded in reaching out to the last elements of society about the importance of education.

## 2.1.5 Gender Profile of the Teaching Staff for 2021–22

Academic Year	Female	Male	Total	Percentage of female staff
2019-20	05	17	22	23%
2020-21	05	17	22	23%
2021-22	05	17	22	23%

There does not seem to be any change in the number of full-time teachers in the college since the new recruitment in the academic years 2019–20 to 2021–22. Also, the proportion of female teachers is seen to be less than the proportion of male teachers.

It is also observed that among the five women, there is one woman principal, one-woman IQAC, and two departmental heads.

## 2.1.6 Gender Balance in Committees 2019–20 to 2021–22

Annual Gathering Committee	02	01

It is observed that for the handling of various issues, the Institute comprises 23 committees. It has been ensured that the proportion of women in every committee should be at least 33% or more.

It is also observed that the percentage of women is higher in some of the important committees. Another thing to be mentioned here is that the President of our Management is also a woman and she is also a Member of the Legislative Assembly of Maharashtra and represents the Amravati constituency. The college runs under the leadership of women in the categories of Principal and IQAC coordinator. It has also been observed that 50% of department heads are women.

## 3.1 Gender Audit Survey and Analysis

Out of 193 respondents, 96% opined that adequate hygiene is maintained in the washrooms.

Eighty-two percent of the 193 respondents were highly satisfied with the gender-related policies handled by the institution.

## 4.0 Recommendations

Taking into account the survey findings, the following practical recommendations are made for increasing awareness of gender equality and showing gender neutral practices with more visibility and outreach in the college's ongoing operations.

- The authority must make attempts to admit female students to NCC.

- Encouraging the dissemination of information on gender sensitivity and equality through induction programs, seminars, debates/quizzes and newsletters.
- The authority should conduct more male-centric activities for gender sensitization.
- There is a need to promote more gender-free activities/competition in cultural activities.

No. of participants:113

Place: Nandgaon Khandeshwar

Woman Cell of Vinayak Vidnyan Mahavidyalaya Nandgaon Khandeshwar organized a guest lecture on Adolescent: Counselling and Guidance by Dr Rashmi Kahar for girls students on 30<sup>th</sup> September 2019.

The session was started with the introductory speech by Dr. Suchita Khodke.

She said about the aim of this program is to aware the girls student about their adolescence problems and educate them how to overcome these problems.

She started her guidance with the information of adolescent group. She said that adolescent group comprises of people between the ages of 10 to 19 years (WHO). The multidimensional development during adolescence presents a number of challenges to them. Adolescents are under pressure to meet the academic expectations of teachers, parents and self. A higher achievement is valued in the society, which puts pressure on students. Experience suggests that adolescents are at greater risk of getting into trouble if their parents are not clear about what to tell them, while concentrating on academic performance among the adolescence. Parents often are not prepared to deal with the challenge that their adolescent is learning to hold her and his reins. Most parents ignore the psychological needs of their adolescents which in turn will affect their mental health.

Her experience suggested that adolescents are at greater risk of getting into trouble if their parents are not clear about what to tell them. Although most adolescents are not happy when parents tell them what to do or not do, they understand and believe that parents are care about them. Adolescents communicate with peers much more closely than parents, teachers and others with whom they communicate only what is necessary. The nature and type of communications adolescents have with their peers, teachers and parents affect their overall behaviour and wellbeing. Parents need to be more consultative and extend their communications to cover diverse topics of interest to adolescents beyond academics and discipline.

In next she said about the girls menstrual period. She focused on following points.

- There is need to educate girls and their caretakers (eg. parents or guardians) about what to expect of a first menstrual period and the range for normal cycle length of subsequent menses.
- Identification of abnormal menstrual patterns in adolescence may improve early identification of potential health concerns for adulthood.
- It is important for every girl to have an understanding of the menstrual patterns of adolescent girls, the ability to differentiate between normal and abnormal menstruation, and the skill to know how to evaluate the adolescent girl patient.

## Report of Inauguration of Sanitary Vending Machine and Incinerator

Date: 8<sup>th</sup> March 2022

On the occasion of International Women's Day, sanitary napkin vending machine and incinerator machine were brought to the students at Vinayak Science College, Nandgaon Khandeshwar.

Today's fast paced life requires such a machine. Along with the issue of safety of women and students who are outside for hours, the issue of their health also becomes important. That is why it is very necessary to have a napkin machine in every college and office. It was under this guidance that a machine bus was introduced in the college.

The response of the girls was much better after the actual installation. This has become a necessity in the present times.

Dr. Sanitary Napkin Vending Machine and Incinerator was inaugurated by Minal Deshmukh, President Gynecologist Association Amravati. As the chief guest at this inauguration ceremony, Dr. Shalaka Bari Secretary Gynecologist Association Amravati was present. On this occasion, the principal of the college Dr. Alka Bhise presided over the function. On this occasion Dr. Meenal Deshmukh wished the students on International Women's Day and in an orientation speech guided the students about the importance of the machine and how to use it and the health effects of not using sanitary napkins. Women's room congratulated for this.

On this occasion Dr. Shalaka Bari told the students about the theme of this year's International Women's Day. Addressing the students in his speech, he told the students that this year's theme of International Women's Day 2022 is 'Gender Equality Today for a Sustainable Tomorrow'. According to this, even though gender equality is seen in the society now, there are still some elements of the society where women do not get the right to education, to speak freely, to fulfill their dreams. Different themes are organized every year to create awareness in such factors. Accordingly, this year's theme is gender equality. Even today we do not talk much about menstruation in our presidential speech. It is spoken like a whisper. Menstruation is still considered taboo in our country. Then we appealed that we should change this situation. In his thanksgiving, the coordinator of women's room Dr. Suchita Khodke thanked Gynecologist Association Amravati for providing financial support for the purchase of sanitary napkin vending machine.

The concept of Gender Equality. According to the todays condition the list of legislations as well as types of discriminations or inequalities may go on but the real change will only come when the mentality of men will change; when the male species of human beings would start treating women as equal and not subordinate or weaker to them.

A total of 22 entries were received for the competition. The drawings—made using color pencils, pens, crayons, or oil pastels—highlighted the importance of cooperation amongst men and women in global development. students pointed out the need to create a progressive and safe future for the next generation and that gender equality is not a women's issue but a human issue.

This activity kept the student engaged and it was organized to explore and encourage creativity in students and offer them a platform to showcase their skills. It inspired them to think and work creatively in order to promote artistic excellence. Previously students list was given by all departments. **Health Awareness program**

**Guidance lecture by Dr. Suchita Khodke, Incharge, Women cell**

**Date: 15-10-2018**

**Topic: HOW TO STAY HEALTHY?**

Women Cell of Vinayak Vidnyan Mahavidyalaya Nandgaon Khandeshwar organized a Guidance Lecture on "How To stay healthy?" for all girls students and women in Nandgaon Kh.. The speaker for the event was Dr. Suchita Khodke who is an incharge of Women Cell and head of the department of Botany.

This program was start with the anchoring of Ms. Pratiksha Bhuse. The speaker was florally welcome by, Kamal Ajmire, Member of Women Cell. The session was started with the introductory speech by Pratiksha Bhuse.

In her speech she said that the purpose of this guidance lecture was to maintain good health.

- Build normal health trends.
- Improve the quality of life for the individual and society

The speaker of this program Dr Suchita Khodke was said that **Girl's education is like sowing the seed to raise the green plant of a charming full grown family which bears fruits. Today's girl child will be the mother of tomorrow.**

The girls of age 19 to 21 years constitute nearly 66 million of population in India. The lives of these girls are characterized by limited education, lack of knowledge pertaining to social as well as health aspects and also limited influence on decisions affecting their lives. Thus, awareness is one major factor for development of this group of population because of the fact that these this age group of girls would be the future housewives.

During this session she talked about

#### **1. Eat Right**

This can seem difficult in college but, when broken down, is a bit more attainable. Try to follow some simple principles like: always eat breakfast, never skip meals and snack regularly to avoid hunger. Balance your meals by ensuring you have the

proper amounts of fruits, vegetables, whole grains, dairy and proteins while leaving sugary and fatty foods by the wayside.

**2. Exercise**

Keeping your body healthy and in shape is important. It doesn't have to be extreme either! Walk to your classes, take a class that involves physical fitness or check out the student facilities your campus offers for students to utilize.

**3. Get Enough Sleep**

It can be difficult to ensure you're getting enough sleep when you've got a huge load of class work, piled on top of all your other commitments or when your friends are staying out all night partying. But getting enough sleep can really improve your overall health and wellness. For college students, experts recommend seven to nine hours nightly.

**Drink Lots of Water**

Staying hydrated will give you more energy throughout the day, reinvigorates your body, stops you from overeating and aids in concentration. It also helps prevent those pesky headaches so fill up your water bottle daily. Remember to reuse a refillable bottle rather than wasting plastic, which is bad for the environment!

"Good health is not something we can buy. However it can be an extremely valuable saving account."by quoting this Dr. Suchita Khodke ended the guidance lecture. The talk was an interactive session which provided insights to all the students to stay healthy.

Vote of thanks delivered by Ms. Kanchan Gawande, Dr. Alka Bhise, Principal of college was congratulate the women cell for this event and motivated to organised such events for students.

Session 2018-19

Guest lecture on Gender Equality in the Society: Need of the Hour by Dr. Minal Deshmukh

Date: 08-03-2019

No. of participants: 124

Place: Nandgaon Khandeshwar

On the occasion of International Women Day Women Cell of Vinayak Vidnyan Mahavidyalaya Nandgaon Khandeshwar organized a guest lecture on "Gender Equality in the Society: Need of the Hour" for all girls students. The speaker for the event was Dr. Minal Deshmukh who is eminent personality in her profession.

The guest was florally welcome by Dr. Suchita Khodke , Inchrge of Women Cell. The session was started with the introductory speech by Dr. Suchita Khodke .

In this session Dr. Minal Deshmukh talked about Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world. Gender inequality has been a social issue in India for centuries. That in many parts of India, the birth of a girl child is not welcomed is a known fact. It is a known fact too, that discrimination starts from even before the girl child is born and sometimes she is killed as a foetus, and if she manages to see the light of day, she is killed as an infant, which makes up the highly skewed child sex ratio where for every 1000 boys in India, there are only 908 girls. In such a scenario, it is but obvious that for myriad reasons, many girls across the country are forced to drop out of school. A girl child is considered a burden and is often not even allowed to see the light of the world. It is hard to imagine this state of affairs in the 21st Century when women have proved to be strong leaders in every field possible. From wrestling to business, the world has been revolutionised by exceptional women leaders in fields that were until recently completely dominated by men.

But in spite of such progress, even today, the girl child is discriminated against in most Indian households. The birth of a baby boy is celebrated with great pomp and ardour, but the birth of a girl child is received with dismay. The practice of female foeticide through sex selective abortion continues to be practiced in spite of the Prenatal Diagnostic Technique Act of 1994. In India the child sex ratio is at the lowest it has ever been with just 914 girls for every 1000 boys.

She said this discrimination continues in every aspect. Be it education, health, protection or participation, the girl child is always treated unequally. Indian society still hasn't been awakened to the importance of empowering the women. The statistics still narrate a grim story of female foeticide, girl child discrimination and gender bias .

- 42% of married women in India were married as children (District Information System for Education (DISE) 3)
- 1 in every 3 child brides in the world is a girl in India (UNICEF)
- India has more than 45 lakh girls under 15 years of age who are married with children. Out of these, 70% of the girls have 2 children.

The need of the hour is to make a change in the mindset of the society and destroy the prejudices that damage the future of the girl child. What is required is a concerted effort to sensitise the society in eradicating this issue of gender inequality. It is high time that every child is treated equally and given every opportunity required to grow to his/her full potential. Its time to create a world where the girl child is celebrated for what she is – where she has access to equal opportunities to study, to grow and to prosper as her male counterpart. A world where the birth of a girl child is celebrated with equal pomp and festivity as that of a boy child.

Our society efforts to bring about a change in this situation include:

- Education that helps create attitudinal shifts towards gender bias and activities to spread awareness
- Continuous efforts towards breaking myths and stereotypes around gender
- Institutionalising gender sensitive processes within various systems such as law and programmes
- Encouraging community ownership in preventing violations based on gender discrimination

Dr. Minal Deshmukh ended the session "It is a time that we all see gender as a spectrum instead of two sets of opposing Ideals". She also said that "Gender equality is not a woman's issue. It is human issue. It affects us all" by quoting this Dr. Minal Deshmukh ended the guest lecture. The talk was an interactive session which provided Vote of thanks delivered by Ms. Kalpana Deshmukh.

### 'Women Empowerment and Gender Equality' Program

15 January 2020

Internal Grievance Cell of Vinayak Vidnyan Mahavidyalaya, Nandgaon Khandeshwar organized the talk on 'Women Empowerment and Gender Equality' Program' on 15 January 2020. Resource person Poonam S. Jakhotiya 'Taradut' Chhatrapati Shahu Maharaj Sanshodhanva Prashikshan Manav Vikas Sanstha (SARATHI) Pune delivered the lecture on topic and Sneha R. Ganvir assist her.

Women's empowerment in India is heavily dependent on many different variables that include geographical location (urban/rural), educational status, social status (caste and class), and age. Policies on women's empowerment exist at the national, state, and local (Panchayat) levels in many sectors, including health, education, economic opportunities, gender-based violence, and political participation. However, there are significant gaps between policy advancements and actual practice at the community level.

One key factor for the gap in implementation of laws and policies to address discrimination, economic disadvantages, and violence against women at the community level is the largely patriarchal structure that governs the community and households in much of India. As such, women and girls have restricted mobility, access to education, access to health facilities, and lower decision-making power, and experience higher rates of violence. Political participation is also hindered at the Panchayat (local governing bodies) level and at the state and national levels, despite existing reservations for women.

State government takes good initiative along with the NGOs and local HEI to sensitize and empower the women. Various programs and talks are arrange.

Grievance cell of Vinayak Vidnyan Mahavidyalaya, Nandgaon (Kh), organized the talk on women's empowerment and gender equality on 15 January 2020. There was 'Taradut' Poonam S. FINAL DHEERA TRAINING FOR SCHOOL STUDENTS  
Description  
FINAL DHEERA TRAINING FOR SCHOOL STUDENTS  
Time  
Mar 14, 2022 02:00 PM  
Online session was conducted on ZOOM platform.

**Session-1**  
**Speaker: Dr Meenal Deshmukh, PRESIDENT, OBGY SOCIETY, AMRAVATI**  
Dr. Deshmukh had delivered guidance on Introduction about DHEERA  
No To Violence Against Women—to stop VAW is a responsibility of each one of us. When I had become a member of FIGO working group on No to Violence Against Women in 2016, I initiated DHEERA, a campaign to stop violence against women. My theme as President FIGSI is "FIGSI FOR ALL ALWAYS," and "DHEERA—STOP VIOLENCE IN WOMEN" aiming to reach SDG-5. Violence against women is perhaps the most disgraceful human rights violation and probably the most prevalent one, and it is sad that the incidence has increased in this COVID pandemic. Nearly 38% of Indian women face violence in the hands of their partners. What we identify is only the tip of the iceberg with many more going undetected. It knows no boundaries of geography, culture or wealth. It is the root cause of maternal morbidity, reproductive coercion, poor physical, emotional and psychological health of women.  
**PLEDGE:**  
I will stop the violence, I will protest the inequality, I will build for justice. I promise to never commit, condone, or remain silent about domestic violence, sexual assault, child abuse or other forms of violence against women, men and children.

**Session-2**  
**Speaker: Dr. Anita Bobade, JOINT SECRETARY, OBGY SOCIETY, AMRAVATI**  
**About VAW**  
The term violence against women means any act of gender-based violence that results in, or is likely to result in, physical, sexual or psychological harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or private life.

Violence against women does not mean only physical violence. It is much broader and includes sexual, emotional, psychological and financial abuse. The National Plan targets two main types of violence against women – domestic and family violence, and sexual assault.

**Types of violence against women**

- Domestic violence.
- Family violence.
- Sexual violence and harassment.
- Non-physical forms of abuse.

Violence against women affects women everywhere. It impacts women's health, hampers their ability to participate fully in society, affects their enjoyment of sexual and reproductive health and rights, and is a source of tremendous physical and psychological suffering for both women and their families.

**Session-3**  
**Speaker: Dr. Shalaka Bari, SECRETARY, OBGY SOCIETY, AMRAVATI**  
**About laws against VAW**  
She had explained an example that Sexual assault or sexual violence can include rape, sexual assault with implements, being forced to watch or engage in pornography, enforced prostitution, and being made to have sex with friends of the perpetrator.

**WOMEN-SPECIFIC LEGISLATION**

- The Immoral Traffic (Prevention) Act, 1956
- The Dowry Prohibition Act, 1961 (28 of 1961) (Amended in 1986)
- The Commission of Sati (Prevention) Act, 1987 (3 of 1988)
- Protection of Women from Domestic Violence Act, 2005
- The Sexual Harassment of Women at Workplace (PREVENTION, PROHIBITION and REDRESSAL) Act, 2013
- The Criminal Law (Amendment) Act, 2013.
- The Indecent Representation of Women (Prohibition) Act, 1986

## Context

Today, Henna is mainly used in celebration of special occasions such as weddings and birthdays in the joyous gathering of people. The Henna paste symbolizes good health and prosperity in marriage, and in some cultures, the darker the henna stain, the deeper the love between two individuals. Now Mehendi designing is widely recognized as a creative profession. In a fast moving world, everyone chooses to become a top notch well known professionalist. However, people forget what their passion is and go with the flow to become something that their parents impose on them. A new career that has started gaining grip these days is to start a Mehendi business. Students can now make their career as a Mehendi artist and become successful by earning of money. This is probably among the best career options for girls after degree if they like making Mehendi designs. as Mehendi designing skills are taught easily and at low cost. Apart from students regular academic activities, if self employment skills like Mehendi designing are taught and trained for girls, they would become self sustained to attain self lively hood in future. Hence it is proposed to organize this course in our institute.

In presidential address Dr. Alka Bhise told that "Savitribai Phule started the first girl's school in Pune with the help of Jyotiba. She worked as a teacher in the same school. In that sense, she was the first woman teacher in India. Savitribai Phule raised her voice against casteism and unfair customs in the society. Took a stand against atrocities, child marriage and tried to create awareness in the society".
